Top-Level Talks Held To Avert Rail Strike

Trans-Continental Dispute Involves 100,000 Workers

OTTAWA (CP) — The president of Canada's two major railways were expected to meet today to discuss a 15-point proposal for a new operating agreement with the union representing those who do not actually operate the trains — have accepted a conciliation board report proposing a 19 percent hourly pay increase in a two-year contract ending Dec. 31, 1965.

Both CNR President Donald Gordon and CPR President N. H. Chumley refused to comment on the meeting with Mr. Pearson or to say whether the railways have decided to accept or reject a conciliation board report proposing wage increases for 100,000 railway workers.

A few minutes later, Labor Minister MacKenzie and Trade Minister Sharp left the prime minister's office and also declined to say anything about the meeting.

Indications were the federal government has placed a proposition before the railways which could open the door to a settlement of the wage dispute.

Mr. Sharp said there was no thought at this time of bringing Frank H. Hall, top union negotiator, into the discussions.

Asked whether the situation appeared to be serious, Mr. Sharp said:

"We're always hopeful."

The 15 union representatives — those who do not actually operate the trains — have accepted a conciliation board report proposing a 19 percent hourly pay increase in a two-year contract ending Dec. 31, 1965.

So far the railways have not said whether they will accept or reject the non-binding wage award.

They have estimated the extra cost of implementing the wage increase at \$57,000,000.

The railways are unable to raise freight rates to offset the cost of such a wage bill.

Freight rates were frozen in 1958 when the previous Conservative government set up the MacPherson royal commission on transportation to investigate railway problems.

Since then the federal treasury has put up more than \$70,000,000 annually in special temporary railway subsidies to preserve the freight-rate freeze.

These freight rate subsidies would be dropped and replaced by other federal payments under the MacPherson plan for streamlining railway operations.

The new subsidies would start at about \$100,000,000 in the first year but would decline sharply as the railways scrapped their unprofitable passenger trains and abandoned their uneconomical branch line system.

At the same time the royal commission proposed a new basis for the freight rate structure, starting with an end to the current freeze on freight rates.

Under the new system the railways would be free to raise or lower the freight rates subject only to minimum controls.

IT WAS THE NOTE THAT HURT MOST

LOS ANGELES (AP) — Employees reporting for work at an east Los Angeles office found a note in the ceiling, the office thoroughly ransacked, and a note reading:

"So solve this one, (signed) A.C."

The office where the burglary was discovered Thursday was the L. F. Clark Detective Agency.

Kelowna Rink Wins Cup At Kamloops

KAMLOOPS (CP) — Rink from Kamloops, Kelowna and Princeton rolled their way to trophies at the Interior Lawn Bowling Championships here Wednesday.

Bert Bostock's rink from Kelowna took the Grand Challenge trophy, coming from an 11-2 deficit to edge the E. Frisch rink of Vernon in the final end.

The Province Cup was won by Cliff Olsen's rink from Kamloops. Mrs. Ada Grant of Kamloops defeated Mrs. Margaret Dexter's Princeton foursome to capture the women's trophy.

Another group of Princeton women, headed by Phyllis Penock edged the Revelstoke rink of Mrs. M. Goughigan to win the women's consolation event.

Lightning Kills 4

NEW YORK (AP) — Lightning struck two groups of people who had sought shelter from thunderstorms Wednesday in Rosendale, N.Y., and Corry, Pa., killing two in each group.

Eleven boys who had been swimming in a creek in Rosendale ran to a large tree and were dressing when the lightning struck.

Donald Morelli, 16, and Gary Schmidt, 11, were killed. Three other boys were injured.

Near Corry, nine farm workers were standing in the doorway of a barn when lightning struck three of them.

Clayton Scouten, about 35, and Glenn Caldwell, 13, were killed. The third was seriously injured.

The nine had been baying on a farm when the storm broke.

President Ahmed Ben Bella, Algeria, above, is reported to have sent troops toward the oasis of Biskra, on the north-east edge of the Sahara, to put down a revolt by a colonel opposed to the government's socialist policies. In a radio and television speech, Ben Bella called on the people of the Biskra region Wednesday to end Col. Mohamed Chahban's "criminal adventure."

British Buses Off To Cuba

LONDON (AP) — A freighter from Communist East Germany loaded today the first of 850 buses which Britain is shipping to Cuba.

The T-185-000 Heinrich Heine was expected to sail late today or Friday. More Communist ships will call for the rest of the shipment.

The deal is earning \$25,200,000 for the Leyland Motor Company and the Cubans have an option for 350 more buses.

Normally the buses would be carried on a British ship. But the United States has threatened to blacklist British ships if they break its embargo on trade with Cuba.

REVOLT IN ALGERIA

President Ahmed Ben Bella, Algeria, above, is reported to have sent troops toward the oasis of Biskra, on the north-east edge of the Sahara, to put down a revolt by a colonel opposed to the government's socialist policies. In a radio and television speech, Ben Bella called on the people of the Biskra region Wednesday to end Col. Mohamed Chahban's "criminal adventure."

HOLIDAY MARRED BY 24 FATALITIES

Dominion Day A "Sizzle"

By THE CANADIAN PRESS

Blistering heat drove many Canadians to beaches, swimming pools and summer resorts during the one-day Dominion Day holiday. They attended a variety of events as Canada marked the 97th anniversary of Confederation.

The one-day holiday resulted in at least 24 accidental deaths on highways and 10 in drownings.

Mary Lou Farrell, 21, of St. John's, Nfld., a model and singer, was named Miss Dominion of Canada, 1964, in ceremonies at Niagara Falls, Ont.

She was one of 15 entries from Nova Scotia, Quebec, Alberta, British Columbia, Manitoba and Newfoundland. Her measurements are 34-24-36.

In second place was Penny McKoski, 21, of Victoria. Chris Karwalajtys, 19, of Winnipeg was third.

The winner was chosen on the basis of beauty, personality and poise. She will enter the Miss Universe beauty pageant at Long Beach, Calif., later this month, the Miss International beauty contest at Miami in September and the Miss World beauty contest at London in November.

MEAT CUTS CROWDS

In Ottawa the heat was responsible for cutting attendance at Parliament Hill ceremonies although thousands did turn out.

Spectators sat through 80-degree temperatures during the morning and afternoon but were cooled by a slight breeze during the evening's military ceremonies.

Three young marchers from the Youthful Movement of Canada paraded on Parliament Hill after midnight Tuesday carrying the proposed maple leaf flag, a contrast to the official display of 60 Red Ensigns on buildings. RCMP ordered them off the hill.

The maple leaf flag also made an appearance in Toronto during a motorcade through downtown streets. One car carried a placard saying: "Native Sons of Canada, Toronto Assembly No. 107, salutes Canada on her 97th birthday."

Temperatures in Toronto soared to the 90s.

About 5,000 persons crowded a downtown swimming pool while resort and conservation areas reported mid-week records for attendance.

Other Toronto events included track meets, an antique car display, baseball games and a blood-donor clinic.

At Embro, Ont., about 6,500 persons attended annual highland games in 90-degree weather. The event is a continuation of gatherings of the clans which originated there 125 years ago.

It was homecoming day for some Canadians. Fifty-eight Canadian troops, the last of about 1,800 who were attached to Canadian units in the Congo, arrived at Trenton, Ont., RCMP station.

In a dazzling ceremony at Montreal, the Canadian Corporation for the 1967 World's Fair took possession of its island site in the St. Lawrence River.

Fireworks flashed over St. Helen's Island as Montreal Mayor Jean Drapeau and Pierre Dupuy, commissioner-general for the fair, signed deeds leasing the site.

Some 7,000 guests watched the ceremonies which included the RCMP musical ride.

In Quebec's Beauce County, on the Maine border, a sudden storm sweeping in from the west winds gusting to 70 miles an hour caused damage estimated at more than \$100,000. Roofs, sheds, farm buildings and trees were ripped away.

JAM LOCAL BEACHES

Beaches were so crowded near Vancouver that the sand could hardly be seen as temperatures in the 70s and sunny weather drove residents out of the city.

Highland games were held in West Vancouver, a Dominion Day queen was crowned in North Vancouver and 350 boats attended a lamb roast on Saanichton Island in the Gulf of Georgia.

Canadian Troops Now Home After Tour Of African Duty

TRENTON, Ont. (CP) — The arrival of 58 Canadian troops, senior Canadian officer in the here Wednesday night ended the United Nations' police duty in the Congo.

The men, the final contingent of UN-assigned troops to leave the troubled former Belgian colony, landed on Canadian soil and brought happiness to a small crowd of wives and friends who greeted them.

The members of No. 57 Canadian signals unit of the Royal Canadian Army Service Corps had been in the Congo for the past year. The plane arrived at the base here 50 minutes before the scheduled departure time Tuesday coincided with the Congo's fourth anniversary of independence from Belgium.

The arrival Wednesday was on Canada's 97th birthday.

More than 1,800 Canadians have served with the UN in the Congo since 1960.

First to step from the RCAF aircraft was Brig. Gen. A. Desjardins of Montreal, senior Canadian officer in the Congo and chief of staff at UN headquarters in the capital city of Leopoldville. He was followed by the unit commander, Col. Donald G. Green of Swift Current, Sask., and Group Capt. George W. Wright of Thetford, Que., an executive officer with the small crowd of wives and friends who greeted them.

Col. Green now returns to Edmonton where he is Western Canadian Command signals officer.

The plane arrived at the base here 50 minutes before the scheduled departure time Tuesday coincided with the Congo's fourth anniversary of independence from Belgium.

The arrival Wednesday was on Canada's 97th birthday.

More than 1,800 Canadians have served with the UN in the Congo since 1960.

Tshombe Wins Common Front In Bid To End Congo Crisis

LEOPOLDVILLE (AP) — Many felt the accord between Moise Tshombe and his former sworn enemy, Joseph Kasavubu, was a "common front" formed from fragments of the late Congo's Premier Patrice Lumumba's extreme Nationalist party.

A common front signed jointly by the one-time secessionist president of Katanga province and Lumumbist leader Antoine Kiwuka said the two had agreed to collaborate to bring about a sincere reconciliation of all the Congo's sons.

Tshombe was entrusted by President Kasavubu with the task of forming a cabinet, however, he must be named Premier designate by President Kasavubu.

Flying Squad Fights Cholera

KUALA LUMPUR (AP) — The government organized a medical flying squad today and ordered 50,000 extra doses of vaccine as the death toll of cholera in Malaya.

Press reports reaching here from a West German plane flying over a rumbustious area of the Malay Peninsula said a deadly disease was sweeping east coast Borneo.

The extra vaccine was ordered from a Dutch basis from the United States.

Press reports reaching here from a West German plane flying over a rumbustious area of the Malay Peninsula said a deadly disease was sweeping east coast Borneo.

Ex-Nazi "Seen" In South Africa

VIENNA (AP) — Connected with criminal Hans Walter Zech, a Nazi who escaped from a West German prison in April, today was reported living in South Africa.

Zech-Nemtsch was reported to be living with German friends.

The report was issued by Simon Wernthal, head of a private Jewish intelligence organization, who played a role in the capture of Adolf Eichmann and other high Nazis.

Spanish Upset Rocks Britain

LONDON (Reuters) — Seventy Conservative members of Parliament have signed a motion accusing the opposition Labor party of "irresponsible and doctrinaire" interventionism causing Britain to lose a £14,000,000 (\$42,000,000) order to help Spain modernize its navy.

Prime Minister Sir Alec Douglas-Home in a speech Wednesday night charged Labor Leader Harold Wilson and his party with "wrecking" the proposed contract for Spain to build several British Leader-type frigates under license.

The breaking off of the British-Spanish negotiations came in the wake of an attack by Wilson on the British government last month for its willingness to supply naval armaments to Spain.

No Secession Says Gordon

LONDON (CP) — Canada's finance minister, Walter Gordon, told British businessmen Wednesday not to worry about a possible split in Canada.

"The great majority of the French-speaking Canadians want to remain a part of Canada," Gordon told a Canada Club dinner on the 97th anniversary of Confederation.

He said Quebec is going through a period of rapid change in which "some extreme and exaggerated statements are being made not only by crackpots and extremists, but sometimes as well by men of influence and power."

Mr. K Handed Swift Reply For Crack During Tour Of Plant

PORSGRUNN, Norway (AP) — Premier Khrushchev told his unwilling hosts at the giant electro-chemical concern Norsk-Hydro today that they could not teach him anything about fertilizers. The firm's general manager replied that they could.

Khrushchev was met by general manager Rolf Oestbye before he started a one-hour tour of the Eldanfer fertilizer plant, part of the Norsk-Hydro complex.

He asked Oestbye which type of fertilizer was better, liquid or solid. Oestbye said that was a difficult question to answer.

Khrushchev remarked: "This seems to be a problem which you have not solved."

Oestbye replied that the company was doing research in this field.

Multilateral Nuclear Force To Come In NATO-Stikker

OTTAWA (CP) — Formation of a multilateral nuclear force in NATO will take time but is necessary, Dirk Stikker, retiring secretary-general of NATO, said today.

During his farewell visit to Ottawa, Mr. Stikker affirmed that Canada is definitely playing its full role in NATO, and said this country and others which have doubt about the multilateral nuclear force do not yet need to commit themselves on the subject.

The force is being discussed among eight member countries and enthusiastically supported by the United States and West Germany. But some of the other countries participating in the discussions are doubtful about the timing and prefer to wait for the outcome of national elections.

Mr. Stikker said that when the eight countries reach conclusions they will report to the NATO ministerial council, and other countries need not make commitments on the subject before then.

"There is no substance to fears that Germany will become a nuclear power in such a force. The force will be under joint control, and the whole object of the multilateral force is to prevent the proliferation of nuclear weapons under the control of national governments."

Asked whether Canada is playing its full role in NATO, he replied: "Definitely yes."

There were some military authorities in NATO who believed some countries could do more, but Canada is not mentioned among them.

Defence ministers of the NATO countries are likely to meet in the autumn to consider studies initiated last year on the inter-relationship of NATO requirements, strategy and resources.

NATO had no single key problem, the solution of which would lead to solution of all other problems, but Greek-Turkish rivalries in Cyprus were the most pressing problem.

Kelowna Left in Vacuum As 523 Jaycees Head Out

By SUZANNE ZWARUN of The Daily Courier Staff

It's all over. Today, the majority of 523 Jaycee delegates attending the annual convention of the Canada Jaycees, are leaving for home from the Atlantic provinces to the North West Territories. The delegates came here as Mayor Parkinson said, "It was good for the town."

They leave behind them a city hall employees who have been kept guessing this week about what next will greet them on city hall steps.

A distinctive flag hangs from the city hall flagpole.

The Jaycees, the parties, the bonfire, the election, are all a part of a convention, especially when the delegates are vibrant, enthusiastic young men.

But that is frosting on the cake. The delegates came here to work to do and they did.

The ideals of Jaycees, of freedom and democracy, were brought home to the delegates by speakers such as Conrad O'Brien, Junior Chamber International president, Fred West, Canada Jaycee president, Robert Elliott, national planning director, J. C. Clarnson, literary president and John Whisman, assistant governor of Kentucky.

What Jaycees can do to benefit themselves, their communities, their country and the world was the predominant theme of the convention.

Plans to celebrate Canada's Centennial are underway now, community programs on how to bring in secondary industries, to clean up sub-standard housing were discussed.

The delegates are leaving the convention rededicated to improving the world.

One speaker summed it up: "The Jaycees are young men too ignorant to know something can't be done, to they go ahead and do it."

Perhaps it was the brightest, most mischievous convention in Kelowna for a long time.

But they put just as much enthusiasm into the business of young men leading the world in the right direction.

TOP JAYCEE OFFICIALS INSTALLED

Installation of new officers of the Canada Jaycees took place at the President's Banquet Wednesday night. Top photo, Magistrate D. M. White of Kelowna (left) who conducted the installation of president Bill Rowe of Calgary. In the background, Fred West, outgoing national president. Bottom photo, three vice-presidents are sworn in and presented with their pins by Mr. Rowe. From left, Tony Hunt of Vancouver, Peter Daniels of Saint John, New Brunswick, Ken Pearson of Ottawa and Mr. Rowe. Elections were held earlier Wednesday and Mr. Rowe was elected by acclamation when his opponent Val Swain of Kingston withdrew because of business commitments. Mr. Swain was appointed legal counsel for the Canada Jaycees last year and it was announced at the dinner he will continue in the position. Both candidates praised the campaign as a lively, fast fight which brought out issues that would have been missed had there been only one candidate.

Breakaway Jaycees Will Not Be Recognized

A Federation of the Breakaway Jaycees, a group which separated from the Canada Jaycees last year, will not be recognized by the Okanagan game awards luncheon Wednesday. The group, known as the "Breakaway Jaycees," was formed by a group of young men who broke away from the Canada Jaycees last year. The group is not recognized by the Canada Jaycees, and the Okanagan game awards luncheon Wednesday will not recognize them.

Ten Jaycee Commissions Report, Have Recommendations Accepted

Recommendations of the 10 Jaycee commissions were submitted for approval in the general assembly of delegates attending the national Canada Jaycee convention in Kelowna Wednesday. The commissions, which were formed last year, have submitted reports on various aspects of the Jaycee program. The reports were presented to the delegates, who then voted on the recommendations. The recommendations were accepted by the delegates.

TODAY'S STOCK QUOTATIONS

TORONTO (CP) — Stock market action featured slightly higher industrial prices and little or no speculative activity during moderate morning trading today.	
Although most gains were fractional, two issues posted hefty rises. Algoma Central advanced 1 1/2 to 35, and Freehauf rose 1 1/2 to 10.	
Brazilian Traction was a heavy trader (13,271 shares) and gained 60 cents to \$3.95. Bell Telephone gained 1/4 while CPR and B.C. Telephone both dropped 1/4.	
Consolidated Paper and Dominion Tar rose as much as 1/4 among papers while B.C. Forest Products and Price Brothers both slipped 1/4.	
Westcoast Transmission gained 1/4 among pipelines, while Husky and B.A. Oil both dropped 1/4 among integrated oils.	
Speculative activity saw Marchant gain five cents to \$2.40, Northern five cents to 84 cents, and Genex one cent to 42 1/2 cents. In speculative oils, Canadian Delphi gained 10 cents to \$8.25.	
In senior base metals, International Nickel rose 1/4 and Hudson Bay 1/4. Trading in senior oils showed few changes. In gold, Hollinger rose 1/4.	
The industrial index gained .22 to 156.85 and the index .18 to 160.43. Gold rose .30 to 132.32 while base metals fell .11 to 93.17. Volume was 769,000 shares compared with 904,000 shares traded at the same time Tuesday.

Income Tax Move Dropped

A resolution for the equalization of income tax was turned down at the general assembly of Jaycee delegates at the national convention in Kelowna Wednesday. The resolution, which was proposed by the Kelowna Jaycees, was defeated by the delegates. The delegates decided to drop the resolution.

Ontario Course Said Unique

Ontario Jaycees have a business administration program which is unique, Val Swain of Kingston, Ont., legal counsel for Canada Jaycees, said in an interview Tuesday. The program is a four-day comprehensive program which teaches the basic principles of business administration. The program is unique because it is the only one of its kind in Ontario.

Canadians Urged To Visit Oklahoma

Three Canadians will run for international office this fall at the World Congress in Oklahoma City. The candidates are John Simpson, Canada Jaycees vice-president, and Jerry Shears of St. Laurent, Que. Mr. Shears is chairman of the Canada Jaycee International Relations commission.

REPAIR CREW BACK IN TROUBLE

ST. LOUIS (AP)—A St. Louis street repair crew that recently paved over a section of heavily used railway tracks found again Wednesday.

Two Fires Cost \$10,000

VANCOUVER (CP) — Two separate fires here have caused an estimated \$10,000 damage. Fires ripped through a two-story wooden home, damaged an adjacent house and spread to a third before it was struck out Wednesday. A moving van caught fire earlier. Damage to the truck was estimated at \$3,000.

LECTURE START

VANCOUVER (CP) — Dr. John H. Spence of the University of Montreal will open a series of public affairs lectures at the University of B.C. July 7. He will discuss "Quebec evolution — as I see it."

PRIEST DIES

OSOYOYO (CP) — Reverend David O'Carroll, 65, priest at St. Ann's Parish here and dean of the Osoyoys Diocese, has died in St. Martin's Hospital in Oliver. Father O'Carroll was born in Ireland and has served the church at Vancouver, Trail and Grand Forks. He came here about nine years ago.

MSA POST FILLED

VANCOUVER (CP)—H. Wyndham Jones, assistant executive director of Medical Services Association for the past 18 years, has been named executive director and secretary-treasurer. He takes over from A. L. McLellan, who retired after 21 years in the post. He will continue as a consultant.

U Thant Lays Down Congo Rules

UNITED NATIONS (AP)—United Nations Secretary-General U Thant laid down a political reconciliation and restraint in the Congo. U Thant said the two major and indispensable conditions for maintaining peace in the Congo are: "It is a tremendous program, the only one on such a large scale. It has been held annually, in conjunction with the University of Ontario, for the last four years. 'Any province with a university with business administration facilities could do it. But it's a great deal of work and money and not all provinces are aware it can be done.' The course is a four day comprehensive one teaching the basic principles of business administration. University instructors conduct it, and the time is divided between lectures and workshops. When we started we had facilities for 40 persons. Now we can take up to 55. The cost per person is \$100, but we find many companies are willing to pay their employees costs," he said.

Check Sportsmen

FORT FRANCES, Ont. (CP) — Lands and forests conservation officers in the Fort Frances district checked 14,000 hunters and fishermen between April 1, 1963 and March 31, 1964. There were 166 seizures, 79 warnings and 158 prosecutions, all but one of them resulting in convictions.

Seminar Held On Development

John Whisman of Kelowna Community Development Center, a project of the Kelowna Jaycees, presented a seminar on development to a group of young men at the Okanagan game awards luncheon Wednesday. The seminar was held at the Okanagan game awards luncheon Wednesday. The seminar was held at the Okanagan game awards luncheon Wednesday.

Best Way

In the discussion which followed, Mr. Rowe of Kelowna Jaycees presented a paper on the best way to develop a community. The paper was presented to a group of young men at the Okanagan game awards luncheon Wednesday.

Boys Steal Plane - Unhurt In Crash

SARASOTA, Fla. (AP) — A 15-year-old boy crashed his airplane today, but he was not hurt. The boy was flying a Cessna 170B when it crashed into a field near Sarasota, Fla. The boy was not hurt and was taken to the hospital for observation.

New Librarian's Appointment Confirmed By Regional Board

W. P. Loftis' position as librarian, was confirmed at the meeting of the Okanagan Regional Board of the Canadian Library Association. The board confirmed Mr. Loftis' appointment as librarian of the Okanagan Regional Library.

Artist Dies

VANCOUVER (CP) — Artist Charles Hepburn Scott, 77, founder and first director of the Vancouver School of Art, died Sunday. He served in the Canadian Army during the First World War. In 1940 he was elected an associate of the Royal Canadian Academy of Arts.

Winner Announced Next Week

oves Its community

community? Golfers come and generally stay more than one day—if the course is to their liking. Many stay a week or two. A good course can mean just that little extra which influences the holidays to take their holidays in Kelowna.

A golfer staying here means motel rent, meals, given fees and all the other expenditures that one makes on a holiday. This is new or "found" money to the community and the economy of the area is increased by just that much.

There is no doubt whatsoever that the Kelowna course has been the key factor in persuading many to holiday in Kelowna. It has not only brought in the money, but it has also brought in the tourists which benefit directly from the tourist trade. In all such cases the golf course should be featured prominently in all their plans.

At one time the course was little more than a pile of dirt. Today, however, it is one of the beautiful spots of the Valley and, despite its beauty, it is a tricky enough and hard enough to manage the interest of the test golfer.

Having the B.C. Amateur there was a feather in the hat of the officials of the Kelowna club and another feather must be added to the excellent management which the club has shown. However, behind all this there is the fact that the course is of championship standards.

Golfers appreciate the excellence of the course and this enthusiasm should extend to all citizens because it cannot be refuted that the local golf course plays a very important role in the life and the economy of the city.

What does a golfer mean to the

"— AND I'LL ACCEPT NO FOUR LETTER WORD ANSWERS"

Peace Power Project May Spawn Fish Industry

VANCOUVER (CP)—The Peace River power project, which may spawn a large inland commercial fishery.

Dr. Gordon Strum, co-chairman of the B.C. Hydro and Power Authority, said in an interview Friday experts are studying the problem of stocking a 600-acre lake behind the dam to provide commercial and recreational fish resources.

The Peace, at \$400,000,000, B.C. Hydro's pet project, calls for construction of a 60-foot high dam to create a reservoir extending more than 240 miles back along the Peace and its tributaries, the Finlay and Parsnip Rivers.

The fish and game branch of the B.C. department of recreation would be responsible for stocking the lake, Dr. Strum said. But establishment of any

commercial fishery would be left to private enterprise.

B. H. Smith, chief of fisheries management for the department of recreation and conservation, said the project is "under active consideration."

Flood, pulp mill pollution and an annual lake-level fluctuation of between 40 and 50 feet for power requirements would pose serious problems, Mr. Smith said.

Timber would have to be cleared from the reservoir basin before net fishermen could operate.

Any successful stock would have to be plankton eaters, he said, "species which could live off the reservoir itself."

Two types of fish which might prove successful were lake whitefish and kokanee, landlocked sockeye salmon.

The reservoir will start to fill in 1968, when the project is scheduled to produce its first electricity.

TO YOUR GOOD HEALTH

Let's Take Look At Contact Lenses

By JOSEPH MOLNER, M.D.

Dear Dr. Molner: Recently I read an article stating that plastic contact lenses are harmful to the eyes, and that there were eight cases of blindness from using them. We are concerned because our son wears them. The optometrist who fitted him said there was no danger. What is your opinion?—MRS. O.

Dear Doctor: I have been reading about contact lenses causing blindness. My daughter and granddaughter wear them, and I am worried.—MRS. S.S.

Let's everybody relax. I read several of those articles, too, and also some others which followed them. There's no reason to be alarmed, although I do think people should know what to expect if they adopt contact lenses.

The articles mentioned above concerned plastic lenses. There is an obvious reason for using plastic: It doesn't shatter.

In the early days of plastic lenses, there were a few which caused a lot of trouble. An impurity in one batch of plastic caused irritation, and the irritation, in some tragic instances, led to blindness.

Now I am not an unqualified proponent of contact lenses. Neither do I condemn them. They are excellent for some people and they are a disappointment for others. It's sort of like politics. The fellow who always votes a straight ticket, and always the same party, is either a professional politician or a fool. Because neither party has a monopoly on brains or good conduct. It's the same with contact lenses. Use them if they are right for you, and don't if they aren't.

I'm not convinced that of the "eight cases of blindness," some of these people may not have had eye problems that would have caused the same tragic result anyway. Maybe 98% maybe no. I have a large area of doubt in my mind because I've seen the same sort of pattern appear in quite different fields of health. Out of a million (or several million) uses of a drug, a treatment or an appliance, you find a certain number of failures.

Report the failures? Talk about them? Study them? Certainly! But find out what caused the failure, and correct it. I'm of a conservative nature and I don't jump on the bandwagon when some new discovery comes along. I'm hungry to know what's good about it, but suspicious enough to want to know what minor aspects may turn out to be harmful, too.

So, in this case, I don't see any reason to be critical of contact lenses, or of plastic ones. I've learned, from those few early cases, one thing to look out for.

But perhaps the biggest lesson

for all contact lenses, as well as a lot of other things: If some product, treatment or appliance causes irritation and inflammation, don't ignore it. Don't keep on using it just because somebody else DIDN'T have trouble.

The important question is whether it bothers YOU. If only eight cases of blindness came from those early, faulty plastic lenses, there had to be thousands of people who didn't suffer.

Medicine, in short, is very personal, and if YOU have trouble, say so. Don't assume that what's right for somebody else, even a lot of somebody else, had to be right for you.

Dear Dr. Molner: My mother disagrees with me on wearing tampons. I would like to know if they are safe?—I.C.

Yes, they are safe. Why don't you ask your mother to call your family doctor? That ought to put her mind at rest.

NOTE TO R.W.: Circumcision is best done in infancy. At age 34 it is possible but uncomfortable. However, if there is chronic irritation, it should be done.

TODAY IN HISTORY

July 2, 1964...

In line with growing movements in Europe, the new fascist party in Canada—the National Unity Party—named as its leader, Adrien Arcand of Montreal, 26 years ago today—in 1938—and began to press for North American Jewry to be banished to Africa. After the Second World War ended, Arcand re-established his party but in recent years he has dropped from public view.

1912—Axis forces which had occupied Tobruk were stopped at El Alamein.

1961—Author Ernest Hemingway was found dead from gunshot wounds.

PIPE CONNECT PLANTS

More than 1,000 miles of chemical-carrying pipelines in Houston, Texas, link 63 plants and seven subterranean salt domes.

OTTAWA REPORT

Africa Hopeful Of Canada's Aid

By PATRICK NICHOLSON
Daily Courier Ottawa Bureau

The eyes of peace-loving Africans are turned hopefully towards Canada, with the request that this country should adopt a friendly "watching brief" over its plans for peace and prosperity through unity.

In striking contrast, the past few weeks will probably see two quite different developments: bloody strife in the Congo on the west coast and in Zanzibar on the east coast, and peaceful planning by nearly all African governments assembled at a conference in Cairo.

June 30 is the fourth anniversary of the independence of the Congo. It is also the day which will see the departure from the Congo of the last of the force of 3,000 soldiers of the United Nations peacekeeping force.

Last summer the heads of government of African states met in the capital of Ethiopia, Addis Ababa, to discuss the situation in Africa. The meeting was convened by the Organization for African Unity, a new organization for cooperation in trade and economics, which might eventually lead to political union in a single African state—a state which would be agreed neither with the Communist bloc nor with the West.

The second meeting of the O.A.U. will shortly convene in Cairo. Soundings have already been put out to seek Canadian representation there in the way of observers. This is a great tribute to Canada, recognizing our repeated efforts to attain peace by participating in various United Nations peace exercises. It also recognizes our status as a leading nation seeking international peace and disarmament.

THOMPSON FAVORED

ETHIOPIA is looked up to by many African states, as being the oldest and most stable regime in that continent, with a very long history of the attributes of its own civilization. The

Canadian best known and admired in Ethiopia is Bob Thompson, the national leader of the Social Credit party here on Parliament Hill. He spent many years working in Ethiopia as a missionary in a leper colony, as the developer of the nation's educational system, and as personal adviser to the Emperor, Haile Selassie. So it is not surprising that the request has come via Ethiopia that Bob Thompson should lead a Canadian observer team at the Cairo meeting.

CHINESE INFILTRATION

The dangerous element in Africa today is one which is very little mentioned in our press. This is the growing influence of the Chinese communists. Chinese diplomats are very active in promoting trouble in the Congo; they are behind the intrigue and violence in Zanzibar. China is making substantial loans to assist these African nations, but is attaching these loans as a key to open the doors for Chinese technicians and experts and to lock the same doors against westerners. One such loan, amounting to \$10,000,000, has been promised to Zanzibar on interest-free terms for 40 years.

The Chinese propaganda is said to be far more effective than that of Russia or of the West, and in some Chinese-dominated new states the leaders wear Chinese-style tunics as a status symbol.

The nations of western Europe are handicapped by their previous history of colonialism, while U.S.A. is even more handicapped by the present schemes of segregationists aimed chiefly against people of African descent. In these circumstances Canada, with a history of neither colonialism nor segregation, may well have a favored position in advising and helping and befriending the new Africa—if we are willing to accept the proffered invitation.

Alert Cleaners Can Stay Alive

NEW YORK (AP)—About 12 of the 3,000 men who clean the gleaming windows of Manhattan's skyline fall to their deaths each year.

And as John Goggin, a fine hand with a squeegee, ate his lunch on a plate of corned beef and cabbage, he explained why.

"In most cases they are the result of carelessness. With some people familiarity breeds contempt."

"Height isn't a danger in itself. If you take care, you're safe up there 600 feet above the street as anywhere. It's what's down below that can hurt you."

"It's much harder on the street cleaning windows from ladders. Twice I fell 15 feet off ladders. But I've never fallen from a strap, God be thanked. You get only one mistake with the belt."

The belts are made of linen. Rope cuts, leather rolls, cotton and nylon fray. But linen lasts and its condition is easily checked.

"It is supposed to be 10th linen," said John, who cleaned his first window here—it was 17 stories up—back in 1929, not long after he left a farm in County Cork.

PANEFUL LIFE

A cleaner handles around 80 windows a day. Goggin, who is 57, has five children (two in college) and two grandchildren. He estimated that in that time he has cleaned about 690,000 windows.

His age is no handicap. He still is as agile as when he

started, and he goes out the 67th-floor window of the RCA Building as unconcerned as some young ex-paratrooper who's worked with him.

"Height doesn't bother an old-timer. Most people think leaning out up there on that belt is the hard part, but it isn't. The most difficult thing I learn to handle the squeegee. It takes two or three years to be a good all-around man."

"We're always being asked what we think about up there. 'Well, if you're up only a couple of floors, you hope you don't splash water on the people below. If you're up 50 stories, you don't have to worry. The water will evaporate or be blown away before it reaches the ground.'"

"You don't spend a lot of time looking down at people. But when you do, you notice that their feet stick out as they walk. They don't remind me of ants. Ants are elongated. People look like little dots taking long steps."

Window cleaners get paid even after 25 days a year weather prevents them from working. They can work in high winds but not if it is too rainy, snowy, sleeting or the temperature falls below 10 degrees.

BIBLE BRIEF

... He that winneth souls is wise.—Proverbs 11:30.

The best time that a man spends on earth is what he does in the interest of Heaven. Jesus said, "Ye are my witnesses."

The Other Driver

Almost every driver thinks he is a good driver. I do and I am sure you think you are too.

But then, if we are all good drivers, why are more than 4,000 people killed and 126,000 injured on the road every year? Why are there more than 600,000 accidents?

The Canadian Safety Council claims that human error is responsible for the vast majority of traffic mishaps. The problem is that almost every motorist fully believes it's the OTHER driver who is responsible for those horrible statistics. He conveniently forgets that HE is the other driver to

everybody else on the road.

Promoting its annual summer campaign, "Slow Down and Live," the Safety Council has issued an urgent plea to every motorist to keep constantly in mind the irrefutable fact that every individual motorist has responsibility to prevent accidents. The council repeated its statement that accidents must be prevented one at a time because they occur one at a time. "If every motorist did everything he could to prevent accidents, the total would drop significantly and hundreds of people would live who might otherwise die ignominiously and horribly."

Short Takes

Industry Minister Drury is scolding the wrong people when he scolds manufacturers for what he calls the costly duplication of production facilities. He should be scolding the government which keeps obsolete anti-combines legislation on the books. Manufacturers would have long since ended that costly duplication, where it was economic to do so, were it not for that legislation. It was put on the books, originally, in the belief that big business meant corporate badness. Since then we have recognized—that is everyone except the government—that bigness also means the efficiency with which to compete for domestic and foreign markets.

Governor Scranton is having difficulty picking up support from delegates to the Republican nominating convention. There is little likelihood of the Republican candidate defeating President Johnson this year, but day by day it becomes increasingly appar-

ent that the Republican who is going to try is Senator Goldwater.

Every time we hear a disc-jockey play the hits of the week, we wonder what the tunes that aren't hits sound like.

Both at the luncheon and at the ceremony for the official opening of the Okanagan Vocational School, government officials made it very plain that the government will "go for" one college only in the Okanagan. This, it would seem would put a quietus on the proposal of two colleges, one at the north and one at the south end of the Valley.

If the Pearson flag proves to be as anemic as the postage stamp with the three maple leaves, it will be a pretty sickly thing indeed. While other countries appear able to produce attractive postage stamps, ours are rarely attractive and colorless. If our stamps are any criterion, Canadians' blood runs mighty thin indeed.

Bygone Days

10 YEARS AGO

July 1954

Gerald A. Elliott, Kelowna druggist, elected head of B.C. Pharmaceutical Association at Nelson convention.

20 YEARS AGO

July 1944

Resolution in favor of repatriating all Japanese in Canada is voted down at the Junior Chamber of Commerce convention by a substantial majority.

30 YEARS AGO

July 1934

Marion Todd, South Kelowna, wins

girls' 100 yards and 50 yards races at Pentliden July 2, and runs in winning relay team with Joan McCall, Primrose Walker and Joyce Jennens.

40 YEARS AGO

July 1924

1,200 school children are guests of the Elks on Flag Day. Each child was handed a Union Jack, and S. T. Elliott and other members of BPOE Lodge 52 organized sports at the park, with Exalted Ruler C. B. Latta presiding.

50 YEARS AGO

July 1914

Winners of proficiency awards in top five divisions at Kelowna Public School were: Div. I, Ewart Fletcher; Div. II, George Pettigrew; Div. III, Charles Stuart; Div. IV, Nellie Jones; Div. V, Bessie Huang.

In Passing

As a rule the self-made person spent most of his time fabricating a front for himself.

John made up to take out: "My mother was enormously fond of children." She certainly must have been, for he had a lot of them.

But perhaps the biggest lesson

THREAT OF GHOST TOWN LOOMS

Uranium City In Quandary

URANIUM CITY, Sask. (CP)—Uranium gave this rugged northern community its name, its reason for being and its biggest headache.

The headache is a capital debt of \$2,200,000. Mayor Jack Woodward says the town probably couldn't pay it if Eldorado Mining and Refining Ltd. was forced to close its uranium mine.

Eldorado, which pays 75 per cent of the taxes here and employs 500 of the 1,500 residents, has uranium contracts that expire in 1968. Prospects for new contracts are grim.

Uranium City was forced into its dilemma by the rapid growth that accompanies the birth of a boom town. Roads, utilities, schools and hospitals were suddenly needed as the tiny bush settlement overnight became a town of more than 8,000.

Backed by the Saskatchewan government and Eldorado, who bought the debentures, Uranium City borrowed \$3,000,000 to provide the necessary services.

In 1961 the international uranium market collapsed and the town's population fell to the present 1,500. The community then had a property assessment of more than \$12,000,000. Today it's \$8,000,000. More than 50

cents of every tax dollar goes toward debt retirement.

Tax collection is also a problem. Residents are sometimes reluctant to pay taxes because of the town's uncertain future.

"They're in a habit of pulling out, leaving their buildings empty and their taxes unpaid," says the mayor. "Some of the back taxes are pretty old and we've started stepping on them pretty hard. If someone leaves and the taxes are more than a year old, we give them a chance to pay and then take possession."

Seizing the buildings doesn't put dollars into municipal coffers, however. Real estate is almost worthless.

The only investment being made in Uranium City is by Eldorado, spending \$1,200,000 this year on new equipment to improve the quality of uranium ore extracted.

A. R. Allen, mine manager, says the investment is being made because indications are that uranium will again be in demand in the mid-1970s and then "we can offer a better product when people want it."

Mr. Allen, who fears the town will die if the mine is abandoned, says the Crown corporation is continually hunting for new markets. Consideration is being given to a slowdown in operations to stretch present

contracts beyond 1968. Eldorado is also investigating the cost of retaining employees during the lull that will follow.

"Miners are great for hoping," says Mayor Woodward, and on a sample of their faith was seen last year when the \$60,000 a year and curling rink burned down. It was replaced with a \$1,000 structure paid for by gifts from the municipality and a subscription from 100 donors.

Eldorado has always held with civil pride and alacrity its own employment. It provided \$5,000 mortgage at low interest rates so they could build homes. Payments were \$0 a month, a bling during the inflationary years when one-room apartments cost \$5 a month. The town still has 3,500 outstanding residential mortgages.

Eldorado's last eight producing uranium mine in the area and it invested \$2,000,000. Since 1961 it has produced 233,000 pounds of uranium worth \$235,000,000.

Last year it turned out 1,835,212 pounds a drop of 104,000 from the previous year. Market price was \$5.00 a pound compared with \$5.00 a pound in the when of the shipping the United States for

the Atomic Energy Commission.

Since the industry stabilized after the 1960 slump, there has been little staff turnover at Eldorado, says Mr. Allen. "All those with itchy feet have left long ago."

Those still at the mine will probably stay until it closes, he says, because Eldorado pays high wages and has an incentive program for miners. A top-notch miner can earn up to \$12,000 a year.

MEG GOES DANCING IN REVEALING GOWN

LONDON (AP) — Princess Margaret danced in a near topless gown Wednesday night and her husband, Lord Snowdon, sported a wig with a tail.

Along with the wig, the princess' husband wore an expensive-looking velvet jacket with huge lace cuffs and a flaring jacket at the back. Prince Frederick wore a black tuxedo and a gold waistcoat completed his evening's costume.

The princess wore a wig, too, a shiny blue creation to match a jeweled gown of pale blue silk. The neckline plunged down to a cascade of diamonds and gold and pearls.

A huge butterfly-shaped brooch pinned the gown at the waist. A black sash draped over the princess' shoulders.

Around her neck the princess wore more jewels ending in a magnificent pendant.

Neither the princess nor Lord Snowdon was setting a new fashion. They were guests of London's Lord Mayor Clement Harman at a Georgian ball and all the guests wore the styles of two centuries ago.

In these days the low neck-line was customary and raised no eyebrows.

Thief Returns Stolen Wallet

A considerable thief returned a wallet taken at the opening of the vocational school Saturday via a mail box and police had today. Missing was the wallet.

The loss was reported to police by Cecil McCallister, 349 Burke Ave., at 5:25 p.m. The same evening lost office clerk placed the wallet in a mail box.

Gerald Martens, of no fixed address, was arrested Saturday, after escaping a police chase, and charged with theft of a motor vehicle and dangerous driving. Other charges are pending from Penitentiary, police said.

Police recovered a car today reported missing Saturday at 11 p.m. by Miss Valerie Mitchell, 1412 Bankhead Crescent. The car was taken from the 1400 block Bertram St. It was found abandoned over a bank in East Kelowna. Police are investigating.

A. J. Barber, 1716 Pandosy St., reported to police at 4:05 p.m. Sunday, someone forced the small window of his car and took a wallet.

Jensen Contracting, Ellis St., reported to police at 8:10 a.m. today someone had attempted to pry open the rear door of their establishment unsuccessfully. Police are investigating.

Trouble Rocket Fails Again

CAPE KENNEDY, Fla. (AP) — Premature shut-down of the second-stage engine prevented a high-energy Atlas-Centaur space rocket from hurling its second stage into orbit.

The failure could further delay development of Atlas-Centaur — problem child of U.S. rocketry — which already is more than a year behind schedule because of various technical problems.

The rocket is being developed to launch unmanned Project Surveyor space craft to the moon next year to make measurements and to scout possible astronaut landing areas. The failure was the second in three test launchings for the vehicle.

But the National Aeronautics and Space Administration claimed some measure of success for today's mission when two major objectives were achieved.

These were ejection of second-stage insulation panels and the restart of the Centaur stage engine boost pump.

The 112-foot-tall Atlas-Centaur blasted away from Cape Kennedy at 10:04 a.m. EDT and performed flawlessly during the first stage Atlas flight.

The second stage ignited on schedule four minutes after lift-off. It was to have burned for six minutes, 17 seconds but radio data showed a shut-down after about four minutes. This prevented the 8,200-pound dummy payload stage from reaching intended orbital speed of 16,600 miles an hour.

It presumably burned up in a fiery plunge back through the atmosphere high above the Atlantic Ocean.

Six Alex Now 61: Has A Busy Day

LONDON (AP) — Prime Minister Sir Alec Douglas-Home, 61 Thursday, started his busy birthday by presiding at a cabinet meeting. The Queen Mother was among the guests attending a luncheon party at 10 Downing Street. Then he was due to answer questions in the House of Commons.

Knifed U.S. Envoy Says He's Now Fit

HONOLULU (AP) — Pronouncing himself fit, Edwin O. Reischauer flew to Tokyo Thursday to resume his duties as U.S. ambassador to Japan. The 53-year-old emissary has been convalescing in Hawaii since April 15 after being knifed by a crazed Japanese youth and then suffering from hepatitis.

Bob Kennedy "To Stay On"

NEW YORK (AP) — Attorney General Robert Kennedy now thinks it is inevitable he will remain in government and he would be willing to run for vice-president or take a major cabinet post, New York magazine reports.

The magazine says Kennedy's new attitude—the one said he might leave the U.S. to teach or write a book—was made plain in a six-hour interview with New York's Washington bureau chief, Benjamin Bradlee, a family friend.

New York says the late president's brother "obviously wants the job" of vice-president but appreciates "without bitterness" the reasons why President Johnson might not want him as a running mate.

Kennedy is quoted as saying: "I should think I'd be the last man in the world he would want . . . because my name is Kennedy, because he wants a Johnson administration with no Kennedys in it. Because we travel different paths. Because I suppose some businessmen would object, and because I'd cost them a few votes in the South. I don't think as many as some say, but some."

New York says that when asked for reasons why Johnson might want him, Kennedy replied: "Because most of the major political leaders in the North want me. All of them, really. And that's about all I've got going for me."

The magazine says Kennedy also would jump at the posts of either state secretary or defence secretary if they should become vacant, and would be interested in becoming ambassador to the Soviet Union, a job the late president once discussed with him.

What Does Quebec Want?

HAMILTON, Ont. (CP) — has said it is impossible to give a precise answer to the question "What does Quebec want?"

Even a mind reader with the mental agility of a computing machine would be forced to give a long, tedious and inconclusive answer, Mr. Favreau said at a liberal party picnic here.

"Quebeckers have no overriding authority to unify their thoughts, some may want one thing, while others something else," he said.

It would be just as difficult to say precisely what people in the other provinces want.

But the justice minister said there was a political renaissance in Quebec — a renaissance all Canadians should encourage—which represents the determination of the Quebec people to better themselves, catch up with their neighbors and enjoy the political liberties which are denied under governments operating dictatorships within the parliamentary system.

Although Quebeckers do not want to impose their culture, language or the Roman Catholic religion on anyone, Mr. Favreau said, they would leave Confederation if they felt they were forced to abandon these things as a condition of full and equal partnership in Canada.

He said Quebeckers want assurance that English-speaking Canadians do not want to impose the English language on everyone in Canada.

They also want to be able to feel at home in their dealings with the government, be able to transact business in their own language.

Twenty Homes Gutted In Religious Riots

BOMBAY (AP) — Twenty houses were burned down and 32 persons were injured in inter-communal rioting Wednesday at Wadhwa village, 350 miles east of Bombay, India, a Maharashtra state government report said. Reliable sources said the rioting was between Hindu and Moslem groups.

Voice Of Kenya Takes To Air

NAIROBI (Reuters) — Prime Minister Jomo Kenyatta opened a new state broadcasting service Wednesday night, saying it would "reflect divergent views of the Kenyan nation as a whole." The service, to be known as the Voice of Kenya, replaces the nationalized Kenya Broadcasting Corporation which closed down Tuesday night.

Suicide Bid Fails For Related Couple

SAIGON (Reuters) — A newly-married bride took poison and her husband set fire to himself when they discovered they were actually uncle and niece, the Saigon Post reported Thursday. The couple were saved by relatives.

World's Fair Pays Bills In Advance

NEW YORK (AP) — The world's fair announced Tuesday that on Aug. 1 it will pay one-fourth of its \$29,800,000 in six-percent promissory notes—two years ahead of the due date. George Moore, chairman of the fair corporation's finance committee, said the early payment of \$7,457,250 was made possible by a tremendous advance sale of admission tickets.

Young Revelstoke Golfer Takes Honors In "Open"

VERNON (Staff) — A young Revelstoke golfer, Barry Davidson, won the "Open" in the Vernon Golf Club tournament today.

In the final round, Davidson, 18, defeated a field of 16 golfers to win the title with a total score of 108 strokes.

Davidson, a member of the Vernon Golf Club, was the only golfer from Revelstoke to compete in the tournament.

Other golfers in the tournament included several from the Vernon Golf Club and a few from other local clubs.

The tournament was held over a three-day period, with the final round taking place today.

Davidson's victory was a significant achievement for a young golfer in the area.

The Vernon Golf Club is pleased to have a local golfer win the "Open" title.

Barry Davidson is a promising young golfer who has shown great talent in the sport.

He is expected to continue his golfing career and compete in higher level tournaments.

The Vernon Golf Club will be holding another tournament in the near future.

Barry Davidson's win is a source of pride for the Vernon Golf Club and the local golfing community.

He is a member of the Vernon Golf Club and is active in its activities.

Davidson's victory is a testament to his skill and dedication to the sport of golf.

He is a young man who is passionate about golf and is committed to improving his game.

School District No. 22 (Vernon) VOTERS' LIST - RURAL AREAS

Qualified persons, other than those shown in paragraph (a) below, wishing to have their names entered on the List of Electors for 1964-65 must file the necessary declaration with the Secretary-Treasurer of School District No. 22 (Vernon), Polson Park, Vernon, B.C., from whom declaration forms may be obtained, NOT LATER THAN 5:00 p.m. Monday, 31st August, 1964, and no declaration shall be accepted by the Secretary-Treasurer unless it is delivered within one week of the date thereof.

As provided in the Public Schools Act (1958), and subsequent amendments, the following persons only are qualified to have their names entered on the List of Electors of the rural area of this school district —

(a) AS OWNER-ELECTORS, British subjects of the full age of twenty-one years who and corporations which are owners, occupiers, or lessors of real property within the rural school district or rural area and who are liable to taxation under this Act, and spouses of veterans who are defined as such in the Veterans Land Act of Canada and who are owner-electors and hold an agreement to purchase land under that Act, if the statutory declaration made by the veteran and his spouse setting forth that the makers thereof are lawfully married to each other, and that one of them is a veteran holding an agreement to purchase land under the Veterans Land Act of Canada, is filed with the secretary-treasurer by the Director, the Veterans Land Act.

(b) AS RESIDENT-ELECTORS, British subjects of the full age of twenty-one years who are resident and who have resided continuously for not less than six months within the rural school district or rural area immediately prior to the submission of the declaration provided for in Section 69, and whose names are not entered on the list as owner-electors;

(c) AS TENANT-ELECTORS, British subjects of the full age of twenty-one years who and corporations which are and have been continuously, for not less than six months immediately prior to the submission of the declaration provided for in Section 69, tenants in occupation of real property within the rural school district or rural area, and whose names or the names of which are not entered on the list as owner-electors or resident-electors.

CORPORATIONS are not automatically placed on the list of electors and those qualifying as owners of property or as tenant-electors must also file a written authorization under the seal of the Corporation naming some person of the full age of twenty-one years who is a British subject to be its agent on behalf of such Corporation. Such authorization shall be filed with the Secretary-Treasurer of the Board not later than 31st August, 1964.

Names, other than property owners, will not be carried forward from last year's list of electors without a person making a new declaration in accordance with the foregoing.

J. W. GREEN, Secretary-Treasurer, School District No. 22 (Vernon), Polson Park, Vernon, B.C.

"Our Wonderful World of People" is a fascinating, educational, enjoyable book to entertain your children. It will stimulate their already budding interest and awareness of people in other lands. They'll fly across oceans and continents on a magic carpet of full-color pictures. They'll see and learn about people in every country. The peoples of Europe, Asia, North and South America, Africa, Australia, their customs, flags, costumes and monuments will come alive as your children paste and learn. The fun of pasting over 400 full-color pictures in the big FREE 48 page album will keep hands and minds active for weeks.

AUTHENTIC... UP TO DATE!

Every word, every picture in "Our Wonderful World of People" has been carefully chosen by competent educators. Their skillful treatment of picture and text will awaken interest, broaden knowledge and stimulate young minds to an ever greater awareness of people everywhere. "Our Wonderful World of People" provides an excellent teaching aid, a lifetime reference book. It could be the start of a hobby ... or serve as a classroom project.

PETER'S PATTERN

with PETER MUNOZ

The old adage that anything can happen in a ball game or you can't be sure until the final out was never more dramatically proven than here last Saturday night.

Seems poor George, a one-night import from Victoria, had the masterpiece all but sewn up, when Vernon's Gord Nuyens lapped a one hop scotcher back at the mound.

First scored a hit, it was changed to an error after the game and eventually back to a hit again. So you see, this pitch proved not only troublesome to George but more so to the official scorer.

But alas, Mr. Brice left next day under the impression he had spun his no-hitter, and basked in the glory of success.

Perhaps the biggest single sporting event ever held in this city, in terms of importance anyway, was last week's B.C. Amateur Golf Championships.

Before we get a chance to recuperate, the Ogoogo Open springs to life. The three-day meet starts July 11 at the Kelowna Golf and Country Club.

Naramata Boy New Champ In Western Soap Box Derby

MISSION, B.C. (CP) — Clive Parker of Interior Naramata, got the thrill of his life Wednesday.

He won the 1964 Western Canada soap box derby and now gets a trip as a Canadian representative to the All-American soap box derby at Akron, Ohio.

Readers that he got a \$500 savings bond and a trophy.

Little Clive's home-made racer beat out another Naramata competitor, Ken Johnson, 15, by a 10th of a second.

Parker got into the final by winning the "B" division event and Johnson by winning the "A" division.

Jack McKinnon of Calgary was second in the "A" event race, while Earl Chinko of Edmonton was third.

Stricken Shot Putter Hopes To Make Trials

VANCOUVER (CP) — Dave Steen thinks he will be ready for the British Columbia Olympic trials here July 17-18.

The 22-year-old shot putter who is one of Canada's top hopes in this year's Olympics said Monday night he is beginning to feel stronger after being struck with mononucleosis a month ago.

Mononucleosis is a blood disease that leaves the sufferer in an exhausted condition. It makes training almost impossible.

Steen reported on his condition in a telephone interview from Eugene, Ore., where he is doing post-graduate work at the University of Oregon.

He has done little competing this year but has been training for the Olympics. He was fifth-ranked shot putter in the United States last year and eighth ranked in the world.

He won a bronze medal for Canada at the 1962 British Empire Games. His best throw is 61 feet 11 1/2 inches.

CANADA SECOND BISLEY, England (Reuters) — Australian scored 1,108 out of a possible 1,200 points and won a practice match Wednesday for Commonwealth and other teams taking part in next week's National Rifle Shooting Association meeting here. Canada was second with 1,104 points.

Record-Shattering Possibilities Loom In B.C. Interior Meet Here

Ever wonder what might happen if potential four-minute milers, He males and females. They ran at 2:50 p.m. the 800 yards men's race.

Other milers are Van Reece, Ted Quirk from the Northwest, North and West Vancouver, 4:18. All milers are also in the 800 yards which features high school champ Gary Benson from Okanagan, Wash.

Entered in pole vaulting is Bob Yard, a former Kelowna resident, now competing for Kelowna of Vancouver Olympic Club. He was fifth in the U.S. Club and Washington State Invitational, with a vault of 15-4.

Chris Westman of Wash. State, mile 4:02, 2 miles 8:57 and 3 miles, 13:53 is also an entry.

Entered in the 100 yards open, is Mike Watson, a high schooler from Burnaby, whose best time is 9.8.

Promising youngster, Fred Norwester, comes 16 year old Harry Cunningham, rated "the outstanding young runner in Canada last year."

Leading high jumpers are Ken Grant of Burnaby Striders and Steve Spencer of Vancouver Optimist Striders, both with 6-6 marks.

Yvonne Breeden, of Norwester, top woman sprinter in Canada's entry. Her times are 10.8 in the 100 yards and 24.3 in the 220.

AGE CATEGORIES "Last year we started an age group meet to stimulate Valley entries," Mr. Brow said.

"We instigated 17 and under, and 15 and under categories. This year we have about 100 Okanagan entries, compared to 15 or 20 last year. Prior, all came from the Coast."

There is the Central Okanagan team, made up of athletes from Winfield, Rutland and Kelowna.

"A strong team is the North Okanagan, which includes 52 athletes."

Udall Warns Senators On Columbia Pay Hitch

Lawrence H. Udall, secretary of the Senate House, said in a letter Wednesday that the Senate must act on the Columbia River pay bill by July 15.

Udall warned the U.S. Senate that the bill must be passed by July 15, or the Senate will be in a "very difficult position" when the House returns to the Capitol on July 13. He said the House has passed the bill, but the Senate has not yet acted on it. He said the House has passed the bill, but the Senate has not yet acted on it. He said the House has passed the bill, but the Senate has not yet acted on it.

Udall said the House has passed the bill, but the Senate has not yet acted on it. He said the House has passed the bill, but the Senate has not yet acted on it. He said the House has passed the bill, but the Senate has not yet acted on it.

Scranton Aims For Shortcut

WASHINGTON (AP)—Partly hand on time and partly Governor William W. Scranton of Pennsylvania is trying a shortcut in hopes of keeping Senator Barry Goldwater from running away with the Republican presidential nomination.

The governor's strategy, according to sources close to him, is to concentrate on capturing 80 delegates—most of them in 14 states—where he has a lead in the polls.

If the Pennsylvania governor is successful, say the Scranton sources, Goldwater would be unable to win the nomination on the first ballot and Scranton thereafter would pick up strength and win on a later ballot.

These 80 votes were described as being among 344 delegates in 12 states—but the greatest proportion are in Colorado, Florida, Illinois, Iowa, Kansas, Minnesota, Maryland, North Carolina, New Jersey, North Dakota, Tennessee, Virginia and Washington.

Although all of these 344 delegates are considered "uncommitted" by the Scranton camp, some 100 of them are publicly committed to Goldwater in one way or another.

The latest Associated Press poll gives Goldwater 108 delegates who are either committed to him or favor him now to 145 for Scranton, with 655 needed for nomination. The convention opens in San Francisco July 13.

Philip Takes Trip For Birdwatching

PHILIP (Reuters)—Prince Philip went birdwatching Thursday in the game-rich area of Lake Myvatn in northern Iceland. Philip, on a three-day trip, was accompanied by his wife, Princess Elizabeth, and their children, Prince Charles and Prince Andrew.

Philip was accompanied by his wife, Princess Elizabeth, and their children, Prince Charles and Prince Andrew. They were on a three-day trip to Lake Myvatn in northern Iceland.
